

THE ART OF PERSONALIZED LIVING

A style guide by the Chez Moi team

AN INVITATION FROM CHEZ MOI

A lot of us feel that we have been trapped in a catalogue. Our houses almost all look the same. It is time we change. It is time we start thinking about personalized living.

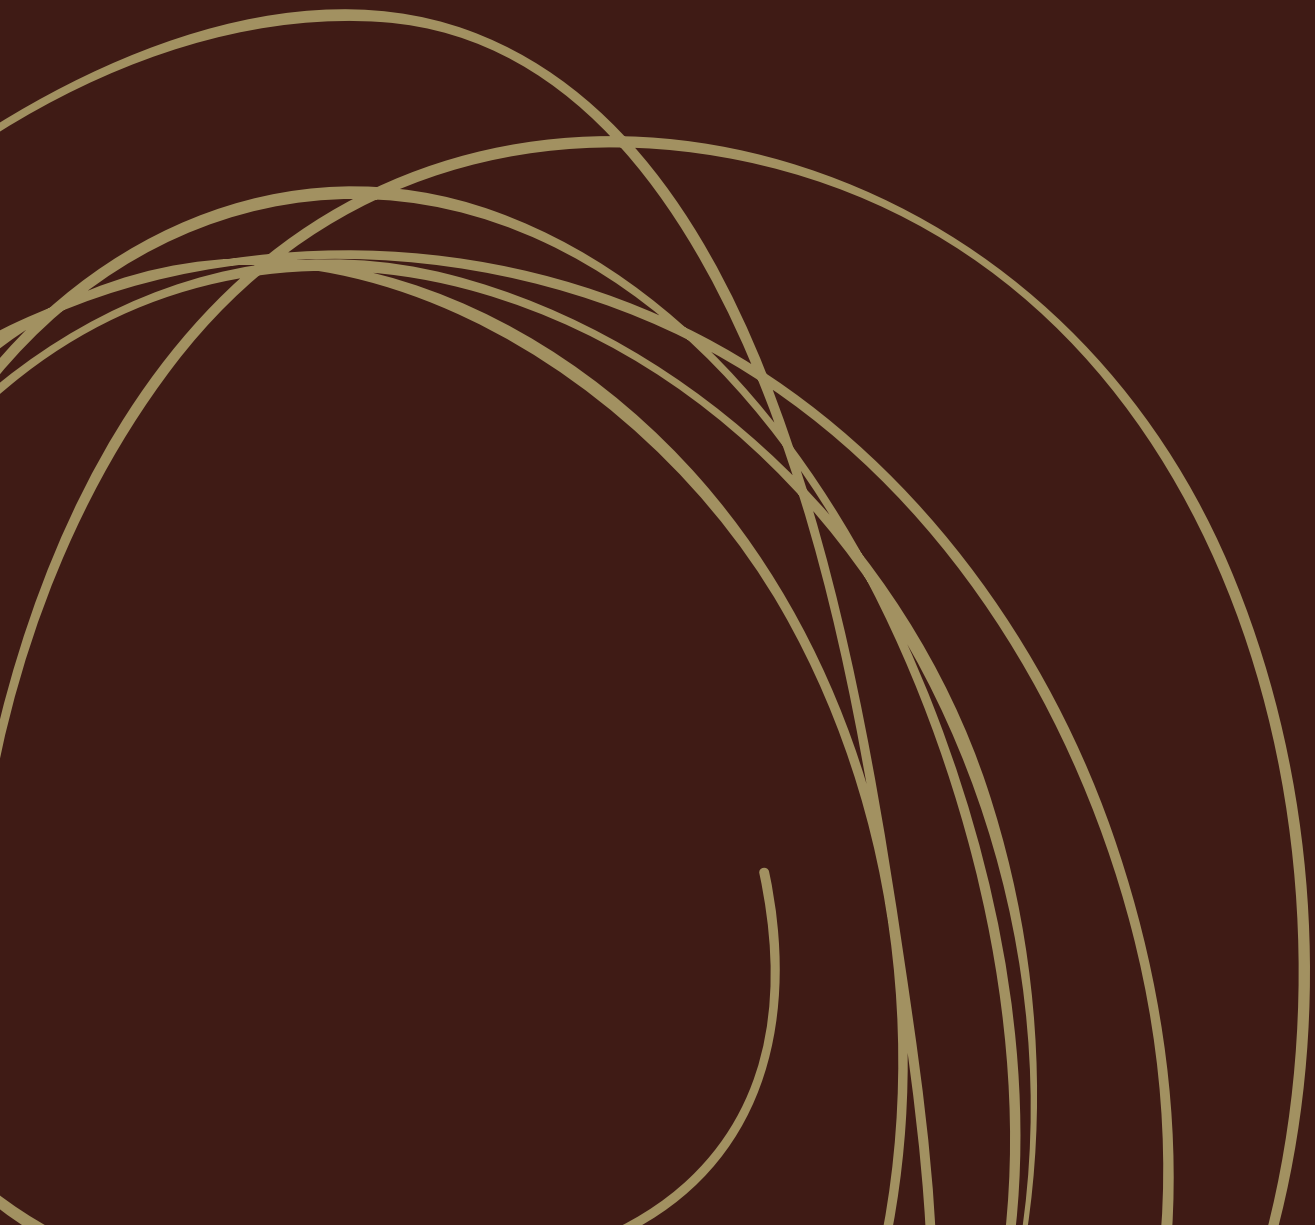

Here, at Chez Moi, we invite you to enjoy personalized living.

Mix light and color, bold and graceful.

Combine modern with antique, character with comfort.

Chez Moi, where staying in is like stepping out...

Enjoy!
The Chez Moi team

LET NATURE IN

Bring elements of nature

into your home.

Let natural colors blend

modern and antique,

old and new.

Tuscan ceramics bring great life to modern furniture.

Rosewood bowls embed all the great colors of nature.

Blend pieces of nature to lighten up rooms.

Bring life to tables throughout the home.

LET CONTEMPORARY IN

Invite a modern style that is full of life.

Contemporary furniture that has plenty of life in it.
Mix styles and fabric to create a welcoming environment throughout the house.

BRING HISTORY IN

Blend antique pieces

with modern furniture

to give it depth

and character.

Antique artwork is blended with new wood to make one-of-a-kind cabinets, credenzas and tables. These pieces break the silence of modern dwelling.

Every visit to your home becomes like travelling through times and sailing through memories.

BRING COMFORT IN

Furniture that

has style, character

and comfort.

Loungy sectionals and roomy coffee tables add plenty of comfort to living rooms, but never compromise quality.

A couch, a couple of benches, and the red onyx coffee table turn this room from a simple living room-to a room that is simply living.

LET YOURSELF IN

Combine modern furniture,

antique casegoods

and full-of-life accessories.

It is all about you defining your style and your trends and make your home follow. Antique accommodates comfort. Modern welcomes old. Glass gets life out of stone.

This is the Chez Moi style... Your Style

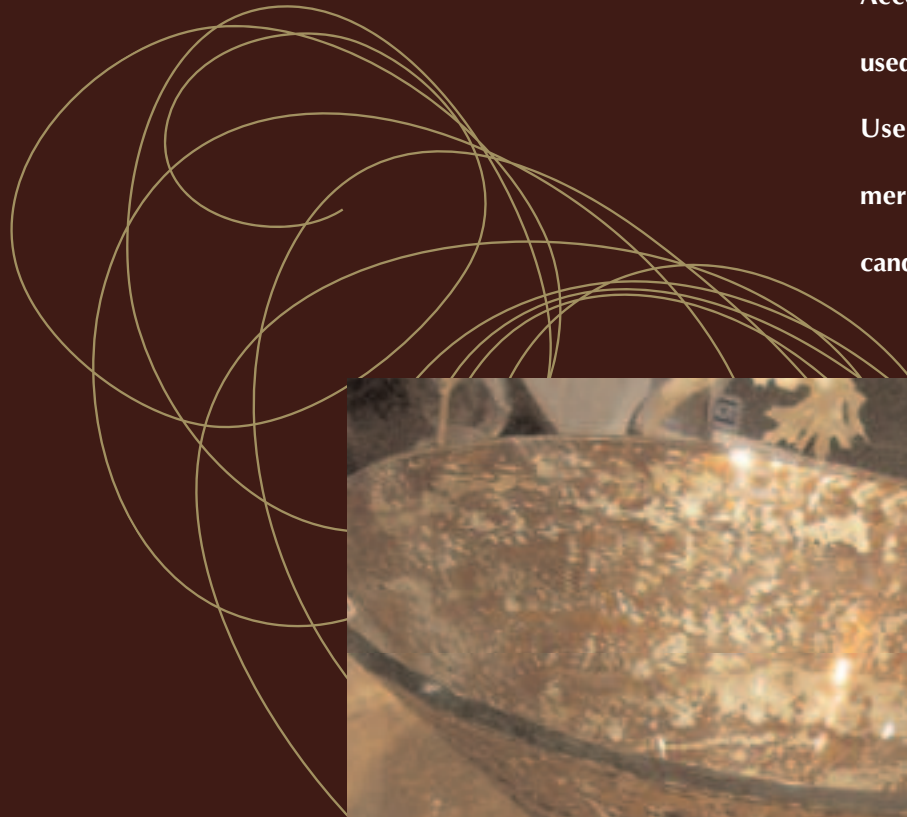

BRING LIFE IN

A mixture of light

and color adds

soul to

your life.

Accessories, mainly handmade, are used to inject life into living spaces.

Use natural and bright colors to merge ceramics, blown-glass candelabras and capiz shell tableware.

LET THERE BE LIGHT

Light fixtures are

an important

element of design.

IMMERSION IS KEY

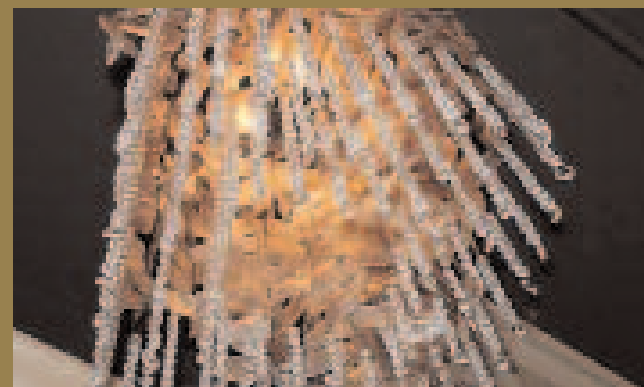

Lighting elements blend with colors, furniture and style of every room.

Green chandelier made from Capiz shell and infused with clear crystal.

Rectangular Capiz chandelier is ideal over an oval or rectangular dining table.

Brown Capiz and crystal are a creative combination to add a flair to your living room.

Inner lit onyx pedestals add plenty of character in any room in the house.

...AND WELCOME YOUR FRIENDS IN

Table settings that

are warm

and inviting.

Capiz-shell tableware, Umbrian ceramics and Tuscan china blend together to form an eclectic dining experience.

A STORY BEHIND EVERY ITEM

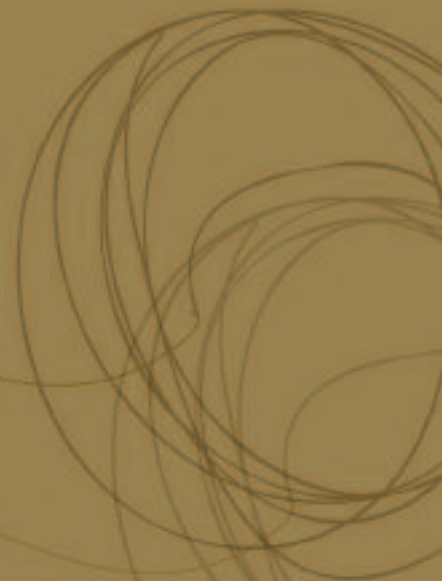

Turn your home into a story book.

Every piece should

tell a story - your story.

This is what personalised living

is all about.

ALWAYS PRESERVE NATURE

Combine living

elements of nature

with furniture

to keep the place alive.

Staying in is like stepping out

for some fresh air.

Stones, dried leaves and pebbles

are embodied inside

tables and consoles.

Chez moi

Chez Moi is San Francisco's
newest home furnishing and
accessory destination with lines
both modern and antiques, and
often signed by the original artist.
There is a story behind every item.
